

**Glassy-Winged Sharpshooter Project
Department of Pesticide Regulation
830 K Street
Sacramento, CA 95814**

**Sacramento County
Public Information Meeting Notes**

Meeting Date:

2:00- 8:00 p.m.
July 19, 2000

Meeting Venue:

Mobil Country Club
Rancho Cordova , CA

Officials and Presenters:

Sacramento County Commissioners;
County Department of Health,
UC Cooperative Extension, UC Master
Gardeners, Office of Environmental
Health Hazards Assessment, California
Department of Food and Agriculture,
and DPR

Purpose: To informed the public
about the upcoming treatment for
glassy-winged sharpshooter.

- 1) The meeting was held at the mobile home park where the infestation is location. Almost all attendees were from the mobile home park. Representatives from various organizations were present to answer questions.
- 2) Approximately 100 people dropped by. DPR got the usual questions about monitoring and carbaryl. There were a few people who had gardens or fruit trees that we may monitor.
- 3) Based on comments from the residents and quick inspection of the area, we are considering including the following in the monitoring. The swimming pool is close to some large oleanders that will get treated. There is a drainage canal next to complex that presumably goes to the American River. The Coloma Water Treatment Plant is next door. We will contact the treatment plant and Department of Fish and Game to see if monitoring is necessary.
- 4) Frank Carl will present the treatment plan to the Board of Supervisors on Jul 26. If approved, applications can begin anytime after that. According to the county, applications will start July 29 and take 2 or 3 days to complete. Tank mix will be 2 teaspoon per gallon.
